REFERENCE LETTER

Burgos, 22nd May 2017

To whom it may interest,

María Nieves Lorenzo Crespo has been working as a teacher in Academia Evolución from 20th September 2016 until 10th May 2017. Along this period she has been giving class to a wide variety of groups of students, ranging from teenagers to university students, and also to adults of different working environments. She has shown to be an easy-going person, capacity to transmit her knowledge, empathy with the students and availability when required.

She knows how to use different resources for her classes, such as games, flashcards, videos, etc., this makes her classes more entertaining and her students appreciate it. She maintains the motivation of her students, creates a good atmosphere in her classes and has a close treatment with them.

Therefore I would recommend her for any teaching job which requires the skills stated here. For any further information that you might need, you can get in contact with me in the telephone number that appears below.

On behalf of Academia Evolución,

Marta Saiz Porres
Jefa de Estudios
